Dear Hiring Manager,

I am writing to express my strong interest in a Data Analytics position within your organization. As a Junior Data Analyst, I have developed solid technical skills and hands-on experience with essential tools such as SQL, PostgreSQL, ETL, Python, DeepNote, AWS, Power BI, Tableau, and Git. Although I am at the beginning of my professional career, my commitment to continuous learning and self-discipline has allowed me to build a strong foundation in data science and analytics.

My core strengths include the ability to create ETL processes and data pipelines using platforms like DeepNote, Google Cloud, Jupyter Notebook, and VS Code. I am also well-versed in version control using Git, ensuring smooth collaboration in team environments. I take pride in my curiosity, analytical thinking, attention to detail, and adaptability in facing new challenges.

I have completed several online courses through Platzi, including Python for Data Science, PostgreSQL, SQL Databases, Mathematics for Data Science, and Data Ingestion with Python, which have equipped me with the theoretical and practical knowledge necessary for real-world data analysis tasks.

I am fluent in Spanish, possess intermediate proficiency in English, and basic knowledge of Portuguese. My passion for statistics, data visualization, Python programming, and machine learning drives me to grow daily as a data professional.

Thank you for considering my application. I would welcome the opportunity to contribute to your team and continue learning and growing within your organization. I am confident that my enthusiasm and strong foundation in data analytics will make me a valuable asset.

Sincerely,

Antonny Jose Picalua Florez
